Adding a new color to your decor

TIPS FROM DUTCH VALLEY FURNITURE

Have you ever found a throw or pillow you just love but you don't have that color in your room? The easiest way to add a new color to a room is to repeat it three times. Find accessories, such as candles, a floral arrangement, art work, or a new rug in the same hue and you have instantly added that color to your room.

BONUS TIP – Some candles are meant to be decorative only and will make a mess if you burn them. When you intend to burn a candle, make sure your tapers, votives or pillar candles are the type that will not drip or smoke. ❁ ❁ ❁
